Sons of Judas Enemy Concept	6-10 hours	Yes	10 hours
Animatic Storyboard	6-10 hours	Yes	10 hours

Question: What skills do you want to get better at doing during Term 5

I want to get better at animation, It's the thing I'm most excited for. I know how to do simple 2d keyframe animations so im curious about the Mocap and 3D animations.

Question: What asset/Model are you excited to make.

None. Hopefully I will never have to model again, because I hate modelling. I hope to work on animation primarily.

Question: What are you excited about after graduation?

I am excited to start working on some personal projects, and use the animation skills I've learned to do my own thing. maybe get hired by Digital Extremes to work on Warframe. I Don't know, but i got knowledge and possibilities now.
